

Summary of Enea's Products and Services

World-Class Professional Engineering Services

- Telecom experts
- All phases of product development, deployment, maintenance and training
- Enea Wireless Solution Center
- Enea Linux Competence Center
- Safety Critical – DO-178B, FAA Certification
- SEI CMM Level 4 Best Practices

Family of Embedded Operating Systems

- Enea OSE, Flagship Real-Time Operating System
- Enea OSE ck, RTOS for DSPs
- Enea OSE Epsilon, RTOS for Deeply Embedded Controllers

High-Availability Middleware and Application Development Frameworks

- Enea Element

DSP Control and Management Platform

- Enea dSPEED Platform

Real-Time, Embedded, Fault-Tolerant Database

- Polyhedra
- Polyhedra FlashLite

Turnkey Network System Platforms

- Enea Accelerator Platform

Interprocess Communications Services (IPC)

- Enea LINX

Development Tools

- Enea Optima
- Eclipse-based development tools, IDE, system state analysis, simulation, performance profiling

Partner Network

- IBM, Kontron, FreeScale, MontaVista Software, Wind River Systems, Tail-F Systems, IPInfusion, Data Connection, SNMP Research, DataLight, and many others.
